PESSIMISTS OR MYSTIC

***** TESTS? *****

Just recently I came across an article in a Saucer journal, in which the writer, bemcaned the fact that there were so many pessimists in the ranks of the Saucer believers, stating that they do great harm to the cause.

Actually if his interpretation of the peesimists were founded on the true meaning of that word , I would have to agree with him , but it was not.

A pessimist I think we will agree is one who sees only the gloomy side of a picture particularly that of the future, and dwells forever on the theme of the terrors or calamities which are to come. and sees no hope or bright out come from the situation which he has firmed of events.

I have been reading saucer literature for over 15 years and merely if ever have come across such foreboding declarations which predict, that the saucers advent indicate one of a gloomy and catastrophic event or events which have no bright out come as a result.

True, I have read and stated myself, that we ARE going to pass through a period of cleansing and adjustment, but that IT IS ONLY A PASSING PHASE , and a completely necessary one. to bring about a BETTER WORLD , and a future that is FULL Of prospects of which man never dreamed possible. and that the saucers are a part of the great change-over plan for that period.

If that is being a pessimist then truly I am one , and one of the worst. and I retract nothing nor make any apologies for it. for I find I am indeed in very good company. and the Sacred Volume is full of such men who foresaw for our particular period of time, an age which would end in colossal world disturbances and warfare, but that out of it would come a KINGDOM OF PEACE ON EARTH. They too were not alone. for men since that period have stated the same in different worlds, but all told of a period of the brightest hopes for mankind to follow such dark times as they saw but as ^{only} a prelude to the Dawn of the New Age.

Of course we have had the intelligent folk like H.G. Wells who some years back said. " The world is headed for the abyss, from which there is not a way to return. There is no way out".

Pessimist or Mystic pests?" (2)

Now there was a case of a true pessimist. for despite his great scientific ability and knowledge, he was so steeped in what he saw as a pure materialist that it was only natural for him to assume 'there was no way out.'

From a purely material outlook which is not balanced by a spiritual viewpoint, who sees man merely as a material object and does not recognise his inner power and for those of the human race who are so deeply entrenched in materialism and who have let themselves become possessed by their possessions. They are truly headed for the abyss of world calamity. UNLESS they shake off their materialism, and AWAKE to their higher selves, and quickly and desperately reach out for the freedom from their shackles. I myself can see no hope for them.

For the Universal Law of Life is that we must "die as a corn of wheat" and rise by the SUN'S warm Life giving RAYS, and in so doing we shall INHERIT THE KINGDOM PREPARED FOR US. If not, we shall pass on to our reward which we shall have earned. For what we sow, we shall reap, is an Eternal Law.

Many of the forecasts we have made have already been fulfilled exactly as we stated, and in some cases WITHIN. This is particularly so in the case of Earth quakes and geological faults in eruption. and their subsequent outcome.

Those of you who will remember, I wrote and told of a most strange experience which I had whilst touring New Zealand and wrote up about in the first edition of Panorama of last year. In it I told of the powerful foreboding I had whilst at Wellington. which later was confirmed by evidence proving the possibility of such by the N.Z. folk I visited, as I continued my tour. As a stranger who had no knowledge of which areas were weak in structure I could not have possibly foretold the places I indicated, in fact, some of the places I thought were the most vulnerable, were not, according to official charts. I stated then that bad earthquakes would rock New Zealand. and the area of Wellington would be badly affected. I saw in my experience the figures 3 to 5. There was much speculation as to what these figures were. I admit myself I thought it could be the Richter assessment figures for the scale of the shocks, but said I felt more inclined that they were months.

March this year 1960, the third month saw the beginning of great shakes. in New Zealand, just above the Wellington area. April saw just below the same area in the South Island. and in passing right at a place where a Saucer had landed 12 months before my visit on the dairy farm of Mrs. Moreland. at Blenheim. As I write here on the 3rd day of May. the 5th month I wonder if there could be a further fulfilment of that strange experience, for whether this is the year for its fulfilment, or not, I know Wellington is to be rocked badly. May be that's being a pessimist. but TRUTH must be told.

Now let us turn to the other portion of my title MYSTIC PESTS. or something I consider much more harmful and dangerous than even a pessimist for at least he is very open and clear to understand. and cannot be condemned as being subtle, for his declarations are clear and easy to understand even if gloomy and unfounded. and without hope.

But what I feel is creeping among us as saucer believers and not us alone, but among all the world. are the numerous new Saviours, or Mentors. who come either personally and are swaying thousands of believers, who literally worship them and chant their prayers and mantras. as though they were God's, some of whom have dared to infer that they are such, reincarnated. Others who are supposedly, "moved" by some great teacher from space to utter declarations which have

beautiful sounding words. sweetly lulling the listeners ears into a self satisfied attitude, never once challenging them to stir themselves up from the dangers around them, or the freeing of themselves from the forces of darkness which are using the very seers so called, to further enchain the doped listeners into a sleep which God alone can awaken them from.

Money flows freely into the hands of the Saviours, crowds flock to hear them and get their ears and eyes tickled and thrilled. whilst repeatedly one will hear how the channel being used is highly praised or commended, hardly ever does one hear them corrected or chastened, as though they are too beyond reproach. humility has flown out the door long ago. and ego the lower self is exalted. Such a one I saw and observed in New Zealand. one upon whom many hang upon for words of instruction and guidance. I sensed the person to be phoney despite all the lovely sweet flowing phrases, all the glamour. I called on the Higher powers to illumine my mind, and show me if I had first of all misjudged this one, for which I would have been truly repentant. had it been so. instead The whole message was full of mistakes. having to correct the flow of the words which fell from the lips. blustering. and knowing not why, confused and confusing the listeners. Oh yes. The Higher ones did not leave me to be mislead for before my very eyes and with my hearing I heard a stammering confused message. , Later at another meeting a tape was played by the same person in which she was praised and acclaimed as one of the great messengers of her time by the like wise blind leader of the blind who made the tape. I saw again the proof the exultant glow of the ego. the face all lit up with self glory. stangely that person avoided me as much as possible. I KNEW WHY.

If ever we should be careful as to whom we follow and serve, it is today. Thousands of so called messengers are claiming that space people are speaking through them; I get their papers. and all is confusion. and chaos. for they contradict and confuse. for some say this, others say that. till one wonders WHAT IS TRUTH ?. or where is it to be found?

There is an unalterable law which is here to assist us all. First seek guidance from the ALL HIGHEST JEHOVAH. The CHRIST. and then observe what He has said BY THEIR FRUITS YE SHALL KNOW THEM. Don't get excited and be swept along with the mob, and the glamour or the showpony stuff. OBSERVE IT ALL stand back and wait the results. . Ask yourself WHAT IS THE EFFECT of these people? Are they fearlessly denouncing wrong in HIGH PLACES. ? Are they defying the forces of darkness. ?. Or are they just lulling their followers until self satisfied sleep state. for if they are of LIGHT they will hate darkness. They cannot and DONOT sit at ease whilst their fellow men are being led into destruction by human hand.

Too often you will hear that the space people do not take interest in our human squabbles. That alone proves the lie. of whom they are. for all our great history is full of records where the angels came and delivered the righteous from the dark forces around them, and who were about to submerge the LIGHT which was glowing, faintly in the hearts of men. Surely that is tantamount to saying they have no interest whether we fight for good or right or darkness. IF THEY ARE OF LIGHT THEY WILL SUPPORT THOSE WHO ARE BORN AND ARE OF LIGHT If Of Darkness. then they will try to STOP the LIGHT overcoming the darkness If then they snugly smoothe over the forces which are now forming up to oppose the Will and PLAN of the LIGHT OF LIGHTS then you can be sure where they belong and who is inspiring whom. BY THEIR FRUITS YE SHALL KNOW THEM Our greatest Danger is the MYSTIC PESTS among us. SEEK AND YE SHALL FIND.

"Pessimists or Mystic Pests?" Cont

The general trouble is that such claims etc by people generally, tend to drive away a serious minded thinker , and creates the danger of closing ones mind to what could be truth in some aspect, or other .

In the latest " ORBIT" from England the Editor touches somewhat on this, and puts his finger on what is one of the very good signs to distinguish genuine claims from groups etc. in that he says " they almost claim to infallibility" or " the only group on Earth " who have the answer.

This to me has always been something which gave me a red light, for I cannot accept ANYONE or ANY GROUP which even feels it is the only one. who has the answers or that " They are the VOICE " or the oracle alone for mankind. This to me is an insult to the Supreme Intelligence and to their fellow humans as though the rest are the scum and they are the cream sent to save such .

No. Again and again I have insisted on humility, and that whatever one gets as inspiration or guidance or telepathic thought. is NO because of their worthiness , for often history has proved the Almighty has inspired the most unworthy creatures, and certainly the most mean and humble of station .

In fact the very receipt of such outside intelligence from our own experience has been to make one feel extremely humble and wonder with awe WHY ME? to be given such a message or inspiration . AND ABOVE ALL NO PRICE: this above all labels any as being inspired not of LIGHT but of darkness. Partake of any personal gain from any such gifts and you LOSE THEM IT IS THE LAW . You cannot make profit from the sources of light.

These Mystic Pests set up their organisations, and confuse the unwary, they are easily noted for their opposition to the highest of all those sent to lead mankind. The Christ, they will call Him all sorts of fancy names. condescending at times to include Him AMONG others, but NEVER giving Him his right place. One cannot help be reminded of the warning given by the Master Himself when He described these days of the end of the present Age. e'er the Dawn of the New, " Many false prophets shall arise, and say Lo, here or Lo there, " Go ye not out into the desert to meet them " Never before have we had so many cults so many isms, so many claims as the Christ. So many claims as being the VOICE of God or The Christ. and as the Editor of Orbit has put it. Mostly at a very good price for the tuition to be had. after you have been sucked in as a member . One stands aghast at the amount of money so many seekers pour into some of these things. in books, tithes, and other things. to GAIN WISDOM ?????

We have written in this strain because there are so many SAUCER groups getting entangled into this mesh of confusion. and the great question comes up with the sincere seeker. How shall I know? How can you tell. Look to the fruit they bear, If in one breath they tell you of calamity to come , observe how they at the same time build huge places of worship, amass great foundations. of wealth and live in luxurious conditions despite an outward show of humble existence If they loudly proclaim WE ARE THE ONES. WE HAVE THE ANSWER. AVOID THEM . The answer is ALWAYS a very simple one, and not wrapped up in a lot of hocus pocus, but too often we pass it by because it IS so simple. In Tune with the INFINITE so wrote Ralph Waldo Trine. and that is just that. the attunement is simple and easy. and needs no cluttering up of thrills from being spoken to by Aunt Fanny from the other side, or Some Great so called Master, or being led into some new world group. saying mantras, and chanting exactly as did the old and as the same today. It is just realising the PRESENCE OF GOD RIGHT HERE Near you and about you, This makes you an optimist and free from Mystic Pests.

ATLANTIS.. AND OUR PRESENT WORLD PROBLEM

By ALICE WINSTON

In cleaning our our cupboards the Editor came across some old pages of a Borderland Science Magazine, Vol XIII No 6 of 1958, then Edited by the late Meade Layne of early Saucer Research fame. Its contents so struck your Editor as being so applicable even more so today than then 8 years ago, he felt it was worth while republishing it. giving credit to both the writer and the old Magazine then known as "ROUND ROBIN" and later to be taken over by its present worthy management of Judith and Riley Crabb.

.....

In our present age of world tensions, fear and unrest- when the fear of extinction through the thermonuclear weapons has become so alarming, one's thoughts are apt to dwell upon other great crises in the evolution of this planet, when, because of the misuse of the creative forces, whole continents went down into oblivion. Then the thought comes to mind, must humanity again go through the same desperate circumstances, the suffering and the pain, which is the result of the misuse of Divine Laws? Over and over again man has reached a high degree of civilization, only to lose it all in his thirst for personal power.

As described in The Secret Doctrine, By Helene Blavatsky, there have been four great Continents, each reaching sublime heights in civilization. Three were destroyed as humanity took the difficult steps that lead to Soul. The First Race was hardly objective, without type or color, yet of colossal nebulous form. It incarnated in what is referred to as the Imperishable Sacred Land, called so because it never shared the fate of the other Continents. It is the only one whose destiny is to last from the beginning to the end of the evolution of this planet, throughout each Round. It is the cradle of the First humanity and will be dwelling place of the last divine mortal. This First Continent or Island, is the Cap of the North Pole.

The Second Continent, the Hyperborean, stretched southward and westward from the North Pole to receive the Second Race and comprised what is known as Northern Asia. It disappeared as vapour vanishes into thin air.

The Third Race incarnated into Lemuria- though it was known by another name in antiquity - and extended from Madagascar to Ceylon and Sumatra. It included some portions of what is now Africa and now lies beneath the waters of the Pacific and the Indian Oceans, leaving here and there highland tops which are now islands. Here androgenous mankind lived in a veritable paradise, instructed by the "gods" - and here the separation of the sexes took place, which has been referred to as the Fall. As that humanity gradually descended into gross, physical expressions the land was nearly destroyed by combustion in volcanic eruptions, and then submerged. This was twice the eighty-two Cyclic Years ago, A Cyclic Year is what is called a Sidereal Year and is founded on the precision of the Equinoxes. Its length is 25. 868 years. When the last remnants of Lemuria were destroyed Atlantis already existed and was approaching its day of greatest glory and civilization.

Atlantis, the God-inhabited land, was the fourth Continent. It is really the first historical land. The Island, Poseidon, made famous by Plato, was but a fragment of that great Continent.

In studying the Atlanteans one must take into consideration that the latter Lemurians, who were highly evolved, blended with the Atlanteans.

ATLANTIS Cont (2)

They built large cities, cultivated arts and sciences, and knew astronomy, mathematics and architecture. At the submersion of Lemuria the Elect took shelter in the Gobi Desert.

The Atlanteans were giants, whose physical beauty and strength reached their climax toward the middle of their fourth sub-race. The country was unique, in that it contained two countries and was inhabited by Two Races- a fighting, warrior race and a pious, meditative race. The priestly men were continually visited by the "Gdds" Both were deeply versed in primeval wisdom and the secrets of nature and were antagonistic to each other in their struggle to progress in their separate paths of evolution. It is the old story of the "War of the Gods" for supremacy, as the Forces of Light and Darkness fought to maintain their power.

A class of Hierophants inhabited Atlantis, produced sexually but of divine parentage. They were born with sight which embraced all hidden things and was independent of both distance and material obstacles. By turning their attention upon what they wished to know, it was revealed to them. In the later days, as the Atlanteans became more material, and more imbued with the desire for personal power, and as they began to misuse the creative force, they became a race of wicked magicians. The came the war, which culminated in the submersion of Atlantis. "The giants and magicians and all flesh died...except Xisuthrus, who, it is said escaped in a large "boat", like the Hindu Noah, Vaivastata- the progenitor of the Aryan or Fifth Root Race.

The Chinese have recorded the existance of a Holy Land, beyond the Sun, Tcheou, beyond which was situated the land of the Immortal Men. They still believe that the remnants of those who survived when the Island "became-"black with sin" and perished have found refuge in the great Gobi Desert, where they still reside, invisible and defended from approach by hosts of Spirits.

The sinking of the continents of Lemuria and Atlantis is not fictional, for the most archaic Sanskrit and Tamil works teem with references to both Continents. Many now living have evolved and reached the Golden Ages of these vast countries, and are living on the planet now in this last Great Crisis. Thackeray has said "Memory is that part of our souls which is eternal"- and what can be nearer our souls than that which has happened at the dawn of our lives?. These lives are countless, but the Spirit that animates them is the same. Though the physical brain can scarcely remember the events in the present life in all clarity, the collective recollections can never leave us. That is why so many today are gripped with fear as the scientists play with the atomic forces, which are the very Life Force of the Creator of all. God is not mocked. and both physical and spiritual Laws are invincible, unalterable. Using the creative Force for destruction brings its doom. Using atomic energy for good, for constructive uses is well and good, but to jeopardize the health and well-being of all the people of the earth is another matter. It is the voice of the spirit within us that tells those who believe in tradition more than written history that which is said below and relates to prehistoric facts.

"The Kings of Light have departed in wrath. The sins of men have become so black the earth quivers in her great agony. The Azure seats remain empty..."

The story of Exodus- in its details at least- as narrated in the old Testament appears to be another version of the legends told of the Atlanteans. Compare it with the following fragments of the earlier history .

" And the Great King of the Dazzling Face, the chief of all the Yellow-faced , was sad , seeing the sins of the Black-faced. He sent his Air- Vehicle, (The Vimanas) ancient name for Flying saucers.. to all his brother chiefs with pious men , saying , Prepare. Arise ye men of the Good Law, and cross the land while yet it is dry. The Lords of the Storm are approaching. Thier chariots are mearing the land. One night and two days only shall the Lords of the Dark Face (The Sorcerers) live on this patient land. She is doomed and they have to descend with her . The nether Lords of the Fires(The Gnomes and Fire Elements) are preparing their magic Agnyastra (fire weapons worked by magic) . But the Lords of the Dark Eyes are stronger than they. They are versed in Astra (highest magical knowledge) . Come and use yours, in order to counteract theirs. Let every Lord of the Dazzling Face(Adepts of the WHITE Magic) cause the Vimana of every Lord of the Dark Face to come into his hands, lest any of them escape the waters, avoid the Karmic Deities, and save his wicked followers. May every Yellow face send sleep from himself(mesmerise) to every Black Face . May every man be true to the Solar Gods bind every man under the Lunar Gods, lest he should suffer to escape his destiny, The Hour has struck , the black night is ready." The Great King of the Dazzling face , fell upon his face and wept. "

When the kings had assembled, the waters had already moved... but the people had crossed on dry land. Thier Kings reached them in their Vimanas and led them on to the lands of Fire and Metal. (East and North).. Stars(meteors) showered on the lands of the Black Faces, but they slept. The speaking beasts (artificially made, similar to Frankenstein's monster) kept quiet. The nether Lords waited for orders, but they came not, for their masters slept. The water rose and covered the valleys from one end of the land to the other. High lands remained.. and there , dwelt those who escaped, the men of the Yellow Faces and the Straight Eye. When the Lords of the Dark Face awoke and bethought themselves of their Vimanas in order to escape the rising waters, they found them gone. Thus they went down with the Deluge, perishing to the last man, the soils sinking under their feet and the earth engulfing them that had desecrated her. "

This account of the submersion of Atlantis should make one deeply thoughtful Though recounted in archaic language , it is not difficult to see the misuse of the Life Forces bring awful results, for that is what atomic energy is. Men throughout the world are pleading with the nations to stop the nuclear experiments . Even though not used- yet in warfare , the radioactive fallout from these experiments is poisoning the soil , the water and food of the earth. A year ago the Yoda Di Sh'ite warned that if the experiments were continued we would have reached the point of " no return " - for man has not the power to neutralise the forces he has loosed upon the planet . Still the tests continue. Cannot the peoples of the earth rise and demand , by the very force of public opinion , that all such testing be stopped?. Every nuclear experiment and explosion adds deadly strontium 90 to what has already accumulated and a report was made recently showing this substance has increased 50% in the bones of children. The results are blood and bone diseases.

On the other hand , never before in the history of man have so many been

ATLANTIS Cont. (4)

working for the good of the planet. There are many religious and philosophical groups working for the evolution of man,. Through their clear understanding humanity is being drawn closer to an understanding of its own divinity. This may not seem true when one surveys the chaos and the confusion of the present age, but one must remember the Old Age is drawing to a close and a NEW Race is imminent. The dregs of the old Fifth Race are being brought to the surface and dissipated. One needs to have FAITH in the Law of Divine Harmony upon which our Universe is founded. The old karmic debts of the past must be transmuted in order to clear the way for the Incoming Race. All we recognise at not good — all the left-overs of cruelty, selfishness and greed, must be transformed into Peace and Harmony. When the Hour and the Minute comes, when the Forces of Light are stronger than the forces of negation, all that seems opposed to Good, will lay down their arms, for their work as karmic instruments will be finished.

WE must remember the CREATOR of ALL, STILL RULES, still maintains HIS UNIVERSE and we can trust that ONE, Who is ALL LOVE(our LOGOS) to accomplish HIS PLAN in spite of all the chaos little man has wrought on this particular planet, so infinitesimal in the scheme of things. Above and beneath are the everlasting Laws of Divine Harmony. Even should man make this planet an unfit place for human habitation for centuries, that may be a part of the cleansing process to prepare for the New Age. .. the Age of Peace.. the Age of Harmony and the Brotherhood of Man .. Eventually this " Dark Star" will evolve into the Shining Planet the Creator intended it to be, in that far off period of time when, through His understanding of the Creative Principles He breathed it into BE-ING. Those who understand the continuity of Life will have no fear. Though they may lose their physical forms, the Self moves on into other Planes each to the place he has earned in his life here on earth — the Kindergarten of Life. In due time, if it be part of the Plan to return here to this ~~sphere~~ sphere, those whose karma it is to be part of the New Race will return once more. to take part in another Golden Age. of Peace and joyous living. So, in spite of the appearance of a dark future, let us have an abiding faith in the Law of the Creator to fulfill His GOOD through us.

.....
Whilst your Editor may not wholly embrace all the thoughts expressed by the above writer: . he feels that it contains a vital message. and if ones applies the meanings and the symbolism it is not hard to see how TODAY we are seeing indeed the very forces of the DARK ones opposing those of the LIGHT. If the reader will remember or re-read some of the past Editorials of the Editor they can clearly see what the writer above was conveying only expressed in different words. yet in total harmony with those views expressed by him from time to time.

WE REITERATE with her. THIS WORLD DOES NOT BELONG TO US. IT IS THE LORDS AND THE VIMANAS of old ARE HERE AGAIN TODAY. TO DELIVER EXACTLY AS THEY DID BEFORE. HISTORY REPEATS ITSELF.

THE SKY PEOPLE.

With acknowledgement to Brinsley le Peor Trench .

With speeding rockets thrusting into Space
 Earth-man is seeking for the cosmic place,
 From whence the fabled gods the ancients saw
 Once brought to Earth their golden Iave
 They came in argosies of transient light
 In pulsing stars descending in the night:
 As burnished silver ships that shone by day,
 All robed in white deflecting cometary.
 Young Hermes , and great Zeus, and the rest;
 They came to Earth with purpose and with zest ,
 To help us train our minds and reach the goal ,
 To know ourselves, and liberate the soul.

Like travellers in the mist we grope the past
 To trace the race of men who built the vast
 Foundations of their temples on this sphere;
 To get a glimpse of things that happened here
 Before Titanic forces in revenge
 Demoralised the men who built Stonehenge.
 From Avebury's shrine they watched the sky,
 As those in Andian seaport now thrown high;
 Who built the gateway of the worshipped sun
 With massive masoned blocks hard labour won.
 Huge forms of coral strands they did erect ,
 The mighty platformed temple of Baalbeck,
 Doth tell of men who knew the cosmic law,
 And gazed at Earth from Space, long, long before
 The science of our age had thought of flight,
 They mapped our globe from satellistic height .

Did potents gloom on old Atlantis loom
 Foreshadowing its sad and tragic doom?
 Did messengers from Space a warning give,
 That it should cease its squabbling to live?
 What astronomic tumult sank that land,
 And raised the mighty mountains where they stand,
 Mute witnesses of earth-quake, fear and pain;
 When terror ruled, and all escape seemed vain?
 In stumbling dark with dust clouds overhead
 Survivors of a catalysises fled
 To build anew the life that they had lost
 In centuries to come at fearful cost.

And now that we enjoy their patient toil,
 A harvest garnered from a barren soil,
 Will we repeat their folly, and with the blast
 Bring desolation to this earth more vast?
 The tragic lesson should by us be known,
 And cosmic travellers a way have shown,
 To live at peace with Nature without strife, (cont. overleaf.)
 In unity with universal life.

a monument on Earth was built to stand,
 To be eternal in its land of sand;
 The Pyramid of Cheops with its store
 Of knowledge cut in stone we did ignore;
 So now we seek to find its ancient key
 To heaven's tremendous space and majesty.
 The prophet, sage and teacher in distress,
 For long has pleaded in the wilderness,
 That we may tread with them the humble way,
 And see the glory of a dawning day.

=====

I am greatly indebted and honoured to be asked to print the above by one of our readers, whose thoughts are so obviously are akin to my own .
 By a most strange coincidence, as mentioned in the article on Atlantis in the previous pages. I had just finished printing the poem on the stencils, when this beautiful and meaningful poem was placed on my desk coming per post that very day and hour. Was it just chance that the lines of the writer on Atlantis and those of the poet spoke of the very same things and appeal?
 Do such things happen by chance?. Why was it until just that week that old magazine had lain so long on my shelf with no reference to it or actually forgotten, until I was urged to re read it pages and print it. to follow with a poem from a mind obviously in tune ?
 Who is it among us can say it is all chance? Or is it not better to think that we are but weak and faulty instruments in the hands of greater minds who move us to greater things?. After all is it surprising to find that having dedicated oneself to such a service that the dedication even if unworthy is accepted, and used to glorify Him who is the Great Creator of All?
 Humbly, I prefer to believe it is and to this end it is magazine and its pages are printed that it may be used to bring about the fulfilment of Higher purposes than we dream of, and to this end we strive, and find joy in being USED even if at times the way is strange and unusual. The Editor.

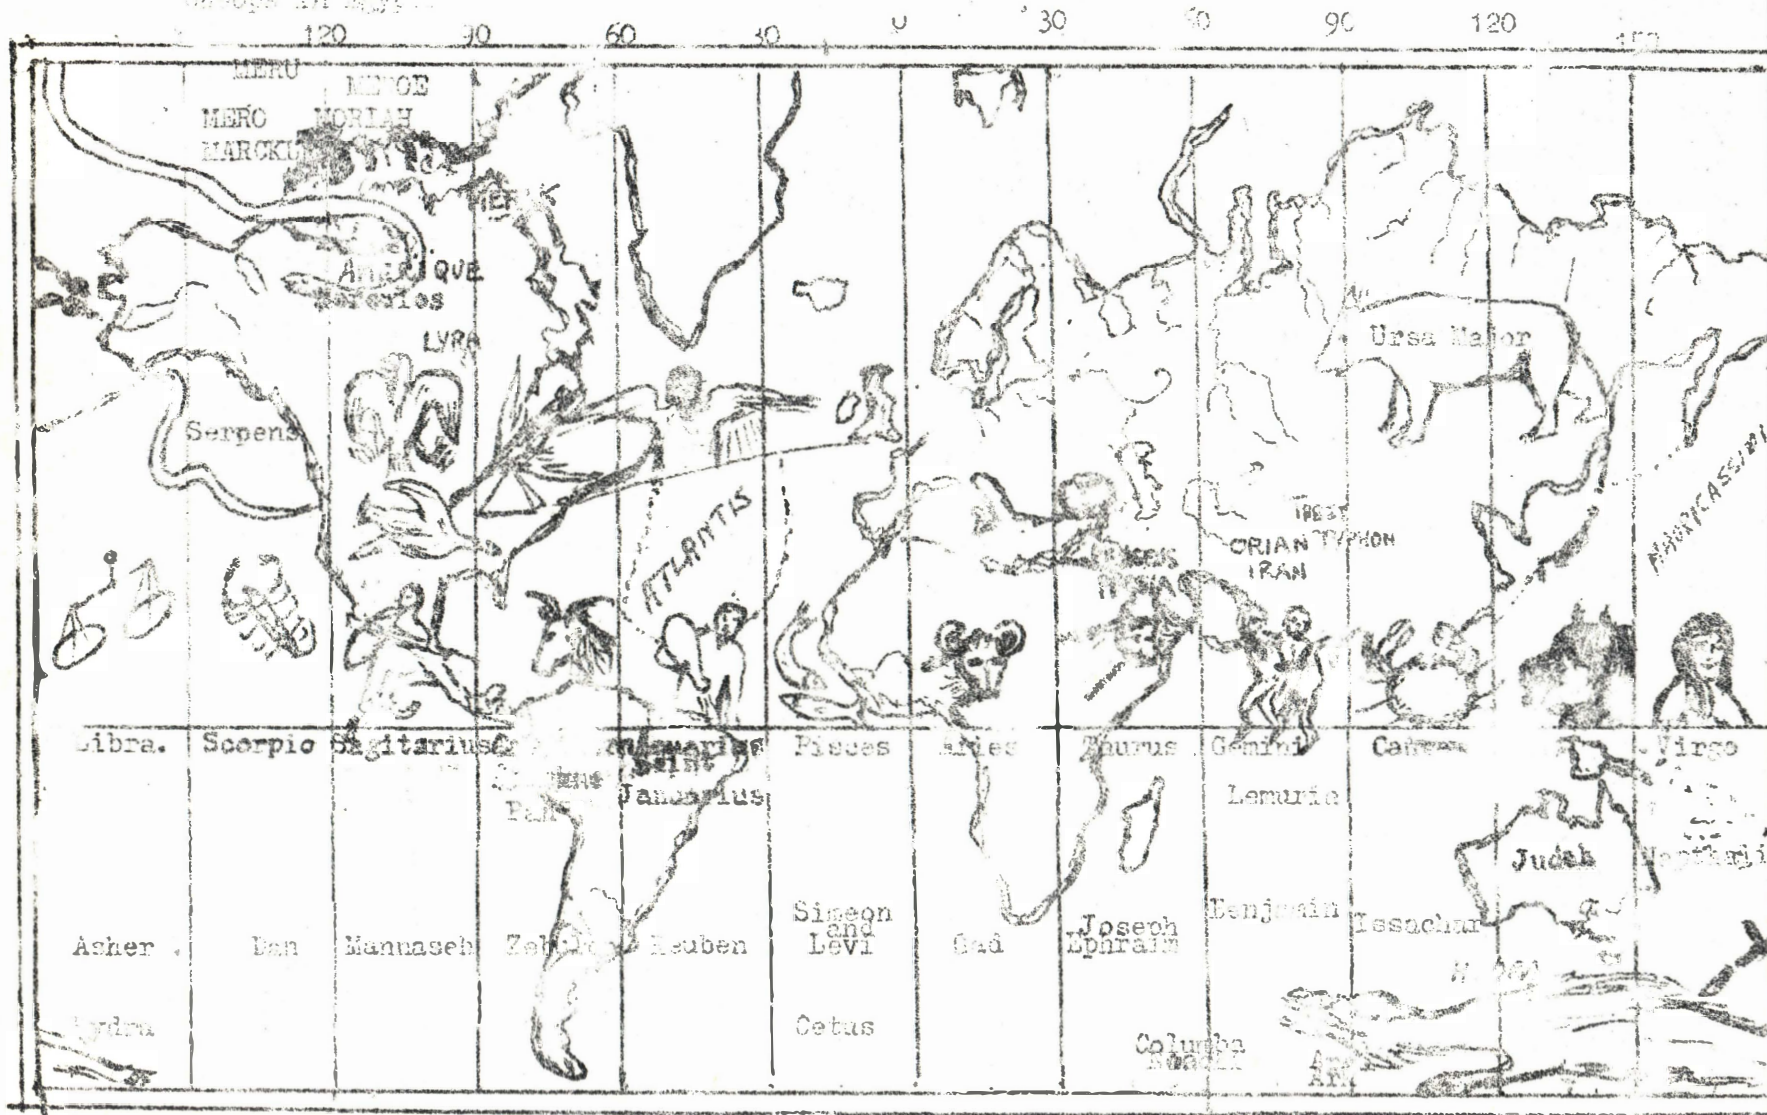

SIGHTINGS ALL AROUND ADELAIDE CONTINUE THROUGH JUNE.

TWO DRIVERS SIGHT FLYING OBJECT.

Adelaide June 8th . Two Ice cream truck drivers today reported having seen a brilliant flying object hovering over their vehicle and zigzagging between Kingston and Haracoorte . S.A.
 The Drivers are Joe Armstrong, and Geoff Polomka . They watched the mysterious object for 20 minutes early on the morning Monday while returning to Adelaide.
 "Geoff spotted it first and said ' What the devil's that?'" Mr Armstrong said " I said it was a morning star but then decided it could not be. It looked like a white spotlight with a red top as a light .
 As we watched we could see the white light was a body of the craft and the red light looked like a dome".
 Mr. Polomka said the white light was interlaced with smaller colored lights. It seemed to follow over an area, and then moved at a fantastic speed to another part of the sky" he said. Both men said they were reluctant to mention the flying saucer to their mates for fear of being laughed at.
 "If I had been on my own I wouldn't have mentioned it to anyone" Mr Armstrong said. " I have always been a bit scornful of flying saucer reports but this one was real . " he said.

PROSICRUCIAN MAP OF THE WORLD 1300 B.C.

The Map shown , represents the countines of the World with the signs, symbols and planetary characters allotted to them by this order in Egypt many centuries before Christ. The map is made from drawings found on the walls in Rosicrucian Temples and the Pyramid of Cheops in Egypt.

THE "BULLETIN" COMMENTS ON FLYING SAUCERS.

As we went to post in the last edition we mentioned the fact of Australia's most conservative paper. "THE BULLETIN" giving an airing to the Flying Saucer Subject. To our overseas friends this to us was quite a surprise, as this paper is noted for its ultra conservative attitude, especially to any subject as that of our own main theme. Hence we feel it warrants a reprint. It appeared in the issue of April 23rd. 1966.

.....
FLYING SORCERY .

The saucer season has arrived in Victoria again . The autumn air is thick with them , and only the great skill of the saucer navigators has prevented disruption of commercial airline traffic.

It really began with the report from Mr. Ron Sullivan, of Maryborough, a steel contractor. He reported that he was driving between Dunnolly and St. Arnaud when suddenly his headlights were pulled hard to the right. "Instead of lighting the road, they lit up the fence, as though they were being attracted by a magnet." he said . " In the middle of the paddock was a column of light about 25 ft. high and shaped like an ice-cream cone." Without a sound, but at tremendous speed , that column rose into the air.

A couple of days later dozens of people in the suburb of Pascoe Vale(near Sandy Stone's Moonee Ponds) reported a "large glowing object , emitting a faint buzzing sound" hovering in the night sky. A Country Roads Board worker said the object was like two saucers stuck together in the shape of a discus and left a yellow blue trail behind it. Scores of similar sightings were reported to the Press, radio, and television newsrooms.

On the same day the president of the Victorian Flying Saucer Research Society released from his top-secret files a photograph of " an unidentified flying object" taken from a garden in Balwyn(on color film with a polaroid camera). The UFO was about 25 ft. in diameter and about 150 ft. up.

" From an almost stationary position it shot off northwards at terrific speed, accelerating to what seemed to be hundreds of miles an hour in seconds."

Melbourne " Truth" decided that in the mounting tension it was time to reveal that for some time a mystery object has been moving in the night sky near Melbourne and then " gradually retreating into space . The object emits a stark, white light and appears to have two craft following it."

" Truth" has some "amazing photographs of this light and its "eerie behaviour" taken by a " Truth" reader who, fortunately, also happened to be a freelance photographer .

Earlier in the month a man reported being followed on his way home from work near Castlemaine by an object " resembling a flying saucer " It was bright-yellow and spinning like a top. He and his wife watched it for 30 minutes before it sped off.

Meanwhile in the north-eastern suburb of Yea a family has been troubled recently by a " bright red glowing object" circling their home; and at Culcairn , in southern New South Wales. local people have discovered rings of dead grass in the paddocks- obviously " flying saucer beds" like those reported in Queensland and Adelaide earlier in the year .

The Government appears to be doing nothing about the saucers at the moment. 

" Flying Sorcery " Cont . (2)

although the Senior operations officer of the Department of Civil Aviation looked forward " with great interest " to seeing some of the pictures and told "Truth" quite frankly that he believed they had a "scoop" .

THE BULLETIN however, will keep the public informed on latest developments. sightings and theories.

What we must urge is that the nation keep calm and face whatever outer-space throws at us with courage and dignity. This is not time for idle speculation false information, or fear-mongering . THE BULLETIN is confident that Australia can meet the challenge of the mounting UFO crisis.

Meanwhile if you see any weather balloons floating around, prick them. The skies are crowded with things enough. as they are .

Editorial Comment. Some of the sightings mentioned above were given on the last edition. but one fact has come from this article . in that the " column" is mentioned as having been " cone shaped " this is a new description to us. but adds further light on what we asked our readers to compare with the sighting which appeared in Adelaide and then two in Victoria within a few days. now making them all " ice- cream Cone shaped ".

ANOTHER MYSTERIOUS SPHERICAL OBJECT FOUND.

=====

Advertiser May 2nd 1966

A heavy spherical metal object about 18 inches in diameter was found on Saturday on the beach at Taylor Island, south-east of Port Lincoln. S.A.

The object, which was found by Mr. R. Casonova. of Sleaford, near Port Lincoln, is of unknown origin .

Mr. Casonova reported his find to the Port Lincoln police and gave them a sketch of the object.

The police will examine the beach today .

This brings the discovery of these mysterious balls all about the same size to four, to our knowledge. this one however is the first found down in the southern regions of the State. The others being found in the northern areas far apart from this find. These objects we have reported in our pages in previous editions. some of them had markings on them . but the strange fact is that no country owned them as theirs. The others were placed in the care of the Long Range Weapons Establishment and were examined carefully for signs of identification. However no final conclusions were arrived at concerning them and they still remain a mystery, and no further reports of them have been made from the Weapons Establishment officials.

We will keep our readers posted of further news. meanwhile we are more inclined to accept the view that these things are NOT from Flying Saucers. but from an earthly origin. and SUGGEST they could be reconnaissance discs placed there or landed there for a special purpose of relaying to their originators. or that they are jettisoned from space objects sent up from earth.

Our guess is as good as any other until further information comes forth.

MARS "CANALS" REAL.

NEW FILM REPORTS SHOW.

NICAP U.F.O. INVESTIGATOR.. Jan. Feb . 1966

The discovery of several " canals" on the Mars- Mariner Probe films--denied after the fly-by last July--has set off a new controversy about intelligent life on the Red Planet. It has also raised the question of whether the facts were known in July and withheld , or if the marks were found belatedly .

Copies of the Mariner film showing the straight-line " canals" were recently shown to NICAP by Dr. Frank. Salisbury of Colorado State University, a noted exobiologist who has analysed the evidence for life on Mars. The canal markings could easily be seen , did not reproduce well enough for illustration,

In a report to the American Association for the Advancement of Science, Dr. C. Tombaugh said he had found " canal" streaks and " oasis" spots in seven of the 22 Mariner photos. ("Oases" are unexplained intersections areas of the "canals") All these markings, the astronomer said, coincided with canals and oases he had seen in telescopic studies and on Mars maps made by himself and other astronomers.

" I know others who say they can't see " canals" on Mars," Dr. Tombaugh told assembled scientists,"but I'd like to see them have their eyes examined. "

According to the scientist in charge of Mariner IV's T.V. operations, Prof. Robert B Leighton , the films are still being studied and there is hope they may yield further information about the mysterious " canals". He admitted it was not known exactly where the camera was aimed during the picture-taking, so that evaluators cannot tie in the photos to specific Mars areas. (Statement to the American Physical Society, Jan. 27, at New York.)

Asked about Dr. Tombaugh's report, Prof. Leighton said he had never spotted a canal through a telescope, but added:

" I have not done 1% of the looking that Clyde Tombaugh has.....Tombaugh knows the face of Mars like he knows the back of his hand. If he thinks he sees a canal on Mars or sees something that could be a canal, I would certainly take him very seriously."

Existence of the canal network has been declared by other well known astronomers, among them , Dr. Earl C. Slipher, lifetime student of Mars at the Lowell Observatory, and Drs. Richardson and Pettit, who saw the canals , sharply defined , through the Mt. Palomar and Mt. Wilson telescopes.

At least one canal map, by Mars authority Wells Alan Webb, shows an impressive network of straight lines connecting the " oases" in a pattern similar to rail road networks in the U.S.

Some analysts, like Wells Alan Webb, suggest the oases are cities or large irrigated areas connected by waterways to polar caps which melt in the Martian springtime. Other scientists , including Tombaugh, say the " canals" must be huge fractures and the " oases" are only large asteroid craters. But no one has explained how random cracks could follow straight lines and craters could be linked with such geometrical precision .

The controversy will go on probably at least until the next Mariner-Mars probe shot in 1969. Hopes for new clues, from an imminent NASA report on the 1965 Mariner films, have now been dashed; This NASA report, Prof. Leighton states
(overleaf)

will not include any data on the canals.

SOME COMMENTS.

Your Editor. feels that the above is very encouraging indeed for he has insisted for a long time that we do not know as much about Mars as the scientists would have us believe , nor do they. the very first of these probes is proof of ~~the~~ lack of indisputable proof that Mars MAY, OR MAY NOT hold life as we know it on Earth, i.e. humanoids.

Much ado was made about the photos taken by the 1965 Mariner probe. and it must be remembered that we were NOT shown ALL the photos. now have we been fully informed as to what those we were not shown contained.

A point which he has stressed is that the insignificant portion of Mars taken by the Mariner camera. could not and will not prove any of the fact of life on Mars . nor could it possibly be expected to indicate what the whole of Mars looks like. Let us liken it to the taking of a photo of the Earth by a Martian camera. the area shown if put all together, would not reveal more than a mere portion of the Earth , in fact lets say it was shot over the Sahara, or the Gobi. deserts, or the Nullabor Plains of Australia , could it be truthfully recording what Earth looked like. it is like taking a photo of a mans hand and saying " that is a man ".

It appeared very strange to your Editor that no mention was made of trying to take shots of canals of Mars. when these intriguing " Lines" have been a point of discussions for over half a century. surely the very thing which may reveal some indication of what made those canals, or what they were or are, would be the first thing to photograph. It now appears that the Mariner films DID do just that. yet no mention was made of it before or after the event. until the above information came to light.

We do not insist that there IS life on Mars. but we DO insist that until we know more about the planet and can have visual proof much better than that supplied to date NO ONE . not even the scientific astronomers have a right to push down our throats their THEORIES one way or the other .

It will only be the honoured ones who are not afraid to say what they have discovered like Tom'ough and Slipher and the others. to whom we can look for an honest answer.

Maybe Dean Swift knew more than we do, when he told of the two satellites of Mars , and even named them, before we knew they existed. Phobos and Diemos he named them and stated that they were artificially made objects.

Like ~~his~~ successor Jules Verne , he was laughed at and scorned by the brains trust of their day . but also both have been ~~proven~~ to have some inner knowledge of certain matters which today are accepted as actual facts.

Among papers which I was cleaning up, I found a copy of the Moon Bridge. which the Late Prof. Percy Wilkins , the gr at Lunar authority. states was not made

Mars Canal Real (3)

such a small area shown be taken as proof of what the Moon really looks like? When it is but a fraction of the area as a whole.

Surely the telescopic photos of Mt. Palomar and other observatories. are better proof, for they reveal clearly the craters etc etc. detailed and outlined so sharply that there can no question of what they are. This, no one could dispute. and as such have been mapped out and taken over most of the known Moon surface which is turned to Earth. One cannot but accept the fact that THE SURFACE OF THE MOON FACING EARTH IS FULL OF SUCH CRATERS.

This does not prove what is on the other side. Nor what could exist inside or under the crust of the Moon. nor explain the strange events and happenings of lights, domes, flashes, formations on the moon. some of which have been observed by accepted astronomers. and cannot be denied. but never fully explained.. to our inquisitive minds. who refuse to accept a statement simply because so and so said it. and after all is only his theory and not proof.

Does Mars have Life?. Do the canals indicate such?. We cannot go further than to say that we have yet to see such straight formations and design. created on such a huge surface by mere lichen or vegetation, even if they were the proof of their existence along the canals it is not proof that they created the canals particularly ~~the~~ straight and geometrical design. Rather it would go to prove that some DESIGNER created the canals for the very purpose of such vegetation to grow along such. for it cannot be denied and is not denied by scientists that these canals do come from the polar caps and stretch out right across the surface area of Mars. , showing darker during the melting snow capped polar region, and lighter at other times. It does not take great intelligence to assume that they are waterways, and that they have been purposely designed for such a purpose viz. to carry water to the drier regions, exactly the same as we do on a much smaller scale for our arid regions.

In my early boyhood days I remember well a man who proposed such an idea for the formation of a huge sea way canal stretching right across the State of South Australia to the Northern Territory up to Darwin. connecting the lakes etc which lie enroute. Of course ~~he was~~ laughed. at. mainly because the engineering difficulties were stated as being impossible and beyond financial ability to meet. Yet we found enough money during the last two wars to Kill human life the cost of which would have twice paid for any water schemes to replenish our Northern arid areas. or make seaways across the continent. Canada has since proved that such can be done by connecting half across her area sea ways. Perhaps after all Mars has some higher intelligences at work or had such, than us and we see and observe their handicraft. and refuse what our eyes indicate to us. It is to the future we hope for the answers.

VISITORS FROM OUTER SPACE . RUSSIAN VIEWPOINT.

Under Kazantsev, the Soviet scientist— whose claim that " men from outer space" visited this planet in the distant past caused so much a controversy in Russia — has just another book published in Moscow in which he elaborates on his theory, and gives what are certainly credible reasons for his beliefs.

In his book " Stages of the Future " he maintains that spaceships from Venus and elsewhere have visited the Earth. This is "proved" by the calendar on the " Gates of the SUN" the Temple at Lake Titicaca, on the borders of Peru and Bolivia. This calendar, according to Kazantsev, represents the year of Venus'.

He also believes that the drawings on rocks in the Sahara desert portray spacemen who landed on the Earth some 8,000 years ago. (cont. next page.)

OUTER SPACE VISITORS. CONT (2)

He points out too, that an ancient Etruscan Plate, kept in a Leningrad Museum shows anthropoid beings flying on a vessel without oars and wearing headgear resembling the helmet of a space suit. On the basis of this drawing Kazantev draws the conclusion that the vessel was propelled by rocket engines.

Kazantev, who is dismissed by some Russians as a writer of "science fiction" and revered by others as having made important contributions to scientific investigation, repeats his claim that the Tungus Meteorite of 1908 was a spaceship which disintegrated. Orthodox scientists, on the other hand, now believe that this phenomenon was actually the head of a small comet which collided with the Earth .. (This new cutting was from the Psychic News May 26 1962)

.....

In relation to the above views of Prof. Kazantev. and his reference to the Sahara stone drawings. we present again one from our own aborigines which we gave some years back in an article on the "Footprints of the Venusian" vide Adamski. One of our American readers then referred to the similarity to that of the Sahara drawings, which we have never seen. and then this being before this news of Kazantev's conclusions as being a clue. she remarked that it was a proof of a Venusian visit to Earth.

In her letter she said " I consider the last issue of the Australian Saucer Record which contains the key to the writing of the space men, to be comparable in importance to the discovery of the Rosetta Stone.I have jotted down in my notebook the date of the publication by " Natural History" Magazine. June - July 1960, the pictures in that cave in Tassili n'Ajjer massif in Sahara in South East Algeria, explored by the French archeologist, Henri Lhote, in 1936-57. I am going to study this magazine again to note the similarity of these ancient cave drawings to those on the Australian Rocks, you have given".

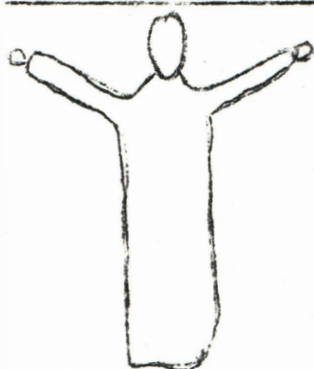

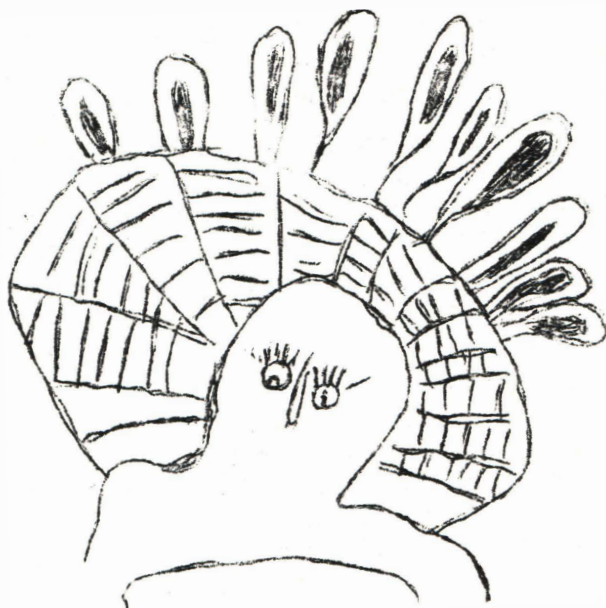

There are actually thousands of such rock carvings all over Australia. some which we would love to explore but the usual lack of finance etc etc. withholds us. We know of one place accessible to us where there are hundreds within a few miles of each other. One of our members some time back photographed a few but said it would take weeks to cover them all.

We reproduce again a drawing taken from the photo we took ourselves when in another region. this is on a curved and rounded rock and hard to get a full face view at one angle. but when compiled together appears as below. We have been told by a tribal elder the central white figure is the Great White one from the Skies and the circular spiral was his "boat", he came in.

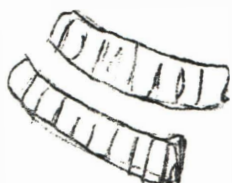

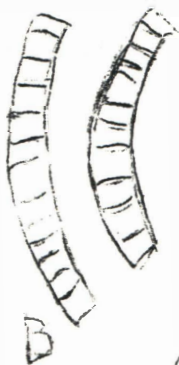

The figures around represent the tribes who are being instructed by him. The Four round figures direct in front of the central figure are those of the elders. the other 7 encircling ladder like curves are those of the tribes assembled for the occasion.

We reproduce from the A.S.R. two other drawings. which are taken from cave drawings many similar ones of which abound around Australia. and we suggest they be compared with incidents in which observers claim they have seen "mouthless creatures" come from a saucer and many other similar drawings around the world of figures almost identical in appearance but with the notable lack of a Mouth. There have been many conjectures as to what this meant. some claiming that it meant they did not speak, but conveyed their message telepathically. Others that they were of different species to ourselves. The rays of light around the heads are unmistakable as portraying the aura of these Sons of Light.

The 2 Below of from Aust. Museum Magazine.

Drawing from photo taken near Woomera. Rock Carvings

The rock this is carved on is about 4 to 5 ft wide by 4 ft long oval in shape. and about 3 ft 6 in high. Many others abound near at hand. but this appeared to be the principal one. a near by valley we were told hold many others , which time did not permit us to visit. There could be some many more such portrayals in that valley. We hope some day to go there.

Dear Editor,

In your last edition you wrote some very good advice and well thought out words, however I feel you missed a good point either for lack of space or time.

I felt that one of the greatest proofs that the space people were here, not so much as Surveyors. as claimed in the broadcast, was the fully accepted fact by the majority of saucer students. that they have been coming for centuries and not, merely some current visitation of contemporary times.

The length of time this has been going on.. surely indicates that if they had wanted to survey the earth, this would have been accomplished long. long ago. and is it not rather, not since we have become users of the nucleus of all life and matter, and its misuse by us. that a great step up in their appearances have shown that of they are surveying at all, it is that they are keeping a very watchful eye on us. to see we do not go too far.

They being in full knowledge of what the misuse of this power can do, know also the effect on our earth, and the solar system in which we live and move and have our being as part of a whole, and are here to stop us going too far. in other words " so far and no further ".

Abiding as they do also the Universal Cosmic Law they cannot interfere with a free decisions of choice, UNLESS we go beyond the point which means we will harm not only our selves and our earth but upset the whole clockwork system. Knowing also the freedom of will will bring about a clash of ideologies, and that those in power control of the earth at present plan to if necessary USE the nuclear forces, for destruction, will not stand by idly and let us destroy what does not belong to us but to the Great Creator This Earth for it is not ours but HIS.

As surveyors then who as you states work to a blue print or plan. their visit is Not a haphazard one but a well planned and timely one to assist those who ally themselves on the side of LIGHT.

Hoping you will space to these thoughts my first attempt to express such in print.

I am,
Yours Faithfully.

J.M. QUEENSLAND.

ELYING SAUCERS AND THE B. CK OUT.

Dear Editor,

Hurrah for your stand on this issue in your last edition. Its time we woke up that not all such effects are ~~done~~ or possible by Saucers so why blame them on such flimsy evidence ?. You may be glad to hear that Jeane Dixon. the amateur secesss, two years ago predicted a widespread blackout with effects similar to those of that on Nov. 9th. And has added since " There will be spasmodic black-outs in other parts of our nation, including Washington as the enemy tests a new type of missile device that can knock out our communication and lighting systems" Exactly as you so far away from here said. A.W. CAL.

CAR RADIO INTERFERED WITH WHEN SAUCER SIGHTED.

Tuesday April 26th 1966. ADELAIDE.

Whilst travelling to work, Mrs. J. Sheldon, a printing machinist, was traveling along the Cavan Rd. leading to the Grand Junction Rd. at 8.50 to 8.55 a.m. when her eyes observed in the distance some 4 miles away over Port Adelaide or a little further out to sea. a long glowing orange colored object, cigar shaped, and appearing to pulsate a little.

At first she did not give it much attention , but suddenly her radio on the car began to play up and its volume decreased and heavy static, and humming noises became very loud on it.

He looked again into the sky, and saw the object which had hovered momentarily, slowly moving forward and then suddenly dissolve into the thick cloud layer of the overcast sky.

She was certain the object was below the cloud layer and not 'in it' when she first observed it , and it may have been hovering for some time before she actually noticed it.

When the object disappeared the radio came back on quite normal and without any reason for its previous behaviour.

Mrs. Sheldon. travels along this road every day to work, and although it was thought at first the high tension wires overhead which are there at that site, may have been the cause of the interference, as she put it. "then why has it never happened before to the radio? "

The length of the object appeared to her naked eye to be about 18 inches to two feet long and the width about 6 to 7 inches. this at a distance of 4 miles would make this quite a large craft. The elevation being about an angle of 45 deg to 50. from her seated position in the car .

She is quite open to the belief that flying saucers could exist but has not given much thought to the subject. and rang your Editor to ask if he thought he could explain the incident .

This being one of the few occasions in which cigar shafted 'saucers' have been reported in Stn. Aust. made him very interested and from all the facts it appears Mrs Sheldon has been a very fortunate woman indeed.

We are hoping other reports may come to confirm this, particularly of radio interferences, as the area between her and the actual object is thickly populated, and it seems that others must have been effected also.

TWO SHERIFFS CHASE "SAUCER" 85 MILES... =====

April 19 1966. DAILY TELEGRAPH

NEW YORK. Mon.

Two deputy sheriffs yesterday followed a "bright circular" unidentified flying object 85 miles from Ohio to Pennsylvania.

The sheriffs, from Portage County, followed the object from Atwater Ohio to Freedom Penn.

The men Dale Spaur and W.L. Neff, were investigating a traffic accident at 5.am. when their police alert radio called them to watch for a flying object headed their way.

When they saw it they went out in pursuit.

Spaur, a former Korean War Air Force gunner, said the circular object, "about 30 to 45 ft. in diameter, travelled at speeds from 80 to 100 miles an hour.

"It was about 1000 ft. in the air and was extremely bright," he said.

"I have never seen anything this bright before in my life."

Spaur radioed details of the object during the chase to Deputy Sheriff Robert Wilson at the Portage County Sheriff's H.Q. in Ravenna. Ohio.

Wilson said that At one time Spaur reported that the object, which had something like an antenna protruding from the bottom, hovered above the car in which Spaur and Neff were driving.

At East Palestine Ohio. just across the border from Pennsylvania, a third patrolman joined the chase. He was Wayne Huston.

He said the object appeared larger than an airliner and travelled in a straight line. "it was a funny thing, but when the object got too far ahead of us it appeared to stop and wait," Huston said.

In another UFO sighting yesterday three rubbish collectors in Benton Harbor, Mich., said they saw a flying object "so bright you couldn't look at it straight."

They said they saw the object hover over a motel along the St. Joseph River. The head of the crew Joseph Franklin, said the object was about 15 storeys in the air, had a steel-like shell and "looked something like a hot dog"

It had a light so bright he could not look directly at it.

Franklin and his crew reported the sighting to the police, who also saw the object.

Dennis Charles, news director of radio station WSJM in Benton Harbour, said he saw the object in the southern sky, quite high and resembling a morning star.

He said it carried red and green lights.

AMERICAN AIR FORCE CLAIMS THE ABOVE WAS VENUS.

Washington. The Air force said today that the object seen by two Ohio policemen was probably a combination of an artificial satellite and the planet Venus

The Air Force report was received by the Ohio policemen with scepticism.

The Air force said "The probable (Note this) probable cause of the sighting cent next page.

Deputy Sheriff's see Saucer (2)

by the two Sheriffs, was the passage of a satellite, as it approached the south-east portion of the sky. It disappeared and the Sheriff Spaur focused his eyes on the planet Venus.

Venus was rising in the south-east, and was brighter than any star in the sky.

"It is believed that Sheriff Spaur saw Venus".

The Air Force added that "radar indicates that no air born objects were in that area at that time of the sighting . ."

However, Ravenna and Sheriff Ross Dustman criticised the report.

"I go along with my men," Dustman said, "It was not a satellite and not Venus. I've seen Venus many times, but I never saw Venus 50 feet above the road and moving from side to side like this was....I have never seen Venus controlled by someone like this was."

.....
We would like to add the subtle way in which the Air Force protected themselves by saying "probable".

Now as such well informed departments they KNOW when a satellite is passing by their charts, and if they were so sure the object was what they claim it to be, then there should be NO PROBABLE, further since when did Venus or a satellite behave as described by these Sheriffs and come so close and waver from side to side. ?.

Not being content with making fools of their own pilots and navigators in the eyes of the public by making such inane and preposterous statements, sometimes when the object they claim it to be is not even in that vicinity, as was last year when one was claimed to be Jupiter, and proven to be impossible for it to be so, by a noted astronomer of that area.

Now they continue their deliberate attempt to hush up these objects and their observance by reputed citizens, by attempting to make idiots of fine men in authoritative positions as these Sheriffs.

One does not have to consider just who the idiots are, for the public now are beginning to awaken to the big smoke screen of hog wash which has been put across them so long, and are beginning to ask the question.

Can so many people of sane and high reputation be all wrong, if not whose fooling who??..

We can only hope that they too will awaken to the other ways in which their eyes have been blinded and by WHOM. Who gives the orders to the Air Force to act like this. ??** and WHY?*****

U.S.A. AIR FORCE RETRACTS ITS ANSWER.

NICAP WASH. Reports that the Air Force has now retracted its statement regarding the Exeter N.H. UFO sighting of Sept. 3rd 1965. which was seen by 2 police officers maneuvering at low altitude. This was due to the work of NICAP leading to a re-examination of the evidence. "They have no explanation for it." MAYBE with similar pressure they may be made to admit more incorrect Blurbs. Let's hope the above case of the 2 Sheriffs may also bring forth an admittance that it was NOT Venus or a Satellite.
